

It's all about you

Mobile C-arm systems including BV Libra, BV Endura, BV Pulsera

For internal use only

PHILIPS

Seeing the difference... and experiencing it

SmartVision

- A fully digital imaging chain including powerful image processing functions
- BodySmart – always ensuring optimal IQ – Philips Unique Selling Proposition
- Automatic Shutter Positioning – Philips Unique Selling Proposition
- Automatic Contrast/Brightness

Seeing the difference... and experiencing it

- 1K2 - Fully digital imaging chain: providing high quality images at a low dose, time after time
- BodySmart – It finds, tracks and precisely defines the measuring field to match the anatomy of interest wherever it is on the II
- ASP – Automatically collimates with just one push of a button – improving IQ
- Auto C/B – Enhancing details at the push of a button for first time right imaging

Reducing size.... and adding space

- Intelligent Viewing Concept – Philips Unique Selling Proposition
- Smallest trolley in the business – Philips Unique Selling Proposition
- High Brightness Color LCD Monitors – height adjustable and foldable

Reducing size.... and adding space

- Intelligent Viewing Concept – position trolley tableside, enter pre-procedure information, turn color LCDs for optimal viewing by physician
- Smallest trolley in the business – no c-arm trolley has a smaller footprint in the OR
- High Brightness Color LCD Monitors – monitors move up-and-down, fold and rotate for optimal working height and transportation/storage

Optimizing workflow... and efficiency

- Fully integrated DICOM connectivity
- Integrated ViewForum Surgical Workstation – digital interactive lightbox
- Touchscreen/user interface

Optimizing workflow... and efficiency

- Fully integrated DICOM connectivity – full RIS/HIS compatibility, export examinations onto hospital network
- Integrated ViewForum Surgical Workstation – digital interactive lightbox: DICOM In capabilities of any x-ray modality
- Touchscreen/user interface – enhancing workflow by simplifying the procedure with a new improved UI and touchscreen option

Philips DoseWise

- Monoblock tube concept – sharp pulses, virtual unlimited fluoro time (no overheating)
- Quarter dose and half dose fluoro – saving dose for both patients and staff
- Copper Filter – Philips Unique Selling Proposition

Philips DoseWise

- Monoblock tube concept – no high voltage cables, sharper images, less heat build-up
- Quarter and half dose fluoro – 6 or 12 pulses per second saves dose without loss of IQ
- Copper filter – filters out 'soft' radiation, reducing skin dose by more than 40% over conventional systems while maintaining high IQ
